

Assistive Technology Devices for Students Struggling in Mathematics

This document contains information on the range of assistive technology devices that can be used by students who are struggling in mathematics. Devices are available to support basic calculations through higher level math skills. Devices are also available to support students who are experiencing difficulty in math due to writing and/or reading difficulties. The types of assistive technology devices used to support mathematics are determined by individual student abilities and needs as well as the required mathematical tasks across all instructional environments.

In this document, assistive technology devices are organized into various categories based on the primary features or applications of the technology. Moreover, the age ranges for which the devices are appropriate are identified in the following categories: elementary, middle, and high school. Lastly, tools are linked to the various math skills addressed in the Georgia Performance Standards. It is recommended that individuals utilizing this document refer to the standards to determine the specific skills that are addressed at each grade level.

- Number and Number Relations
- Measurement
- Geometry
- Algebra
- Data Analysis and Probability

The assistive technology devices referenced in this document are included to provide examples of different types of devices used by students with disabilities to accomplish educationally relevant tasks in instructional and access areas. The document does not include all assistive technology devices within a device category and inclusion of a particular device does not constitute endorsement by the Georgia Department of Education. Additional devices may be added to the document by contacting the Georgia Project for Assistive Technology.

Additional information about the assistive technology devices referenced in this document is available on the Georgia Project for Assistive Technology's website at <http://www.gpat.org>. Additional information about the Georgia Performance Standards is available on the Georgia Department of Education's website at <http://www.georgiastandards.org/>.

| Device Category | Examples | Age Range | | | Content Strands | | | | |
|-----------------------|---|------------|---------------|-------------|-----------------------------|-------------|----------|---------|-----------------------------|
| | | Elementary | Middle School | High School | Number and Number Relations | Measurement | Geometry | Algebra | Data Analysis & Probability |
| | | | | | | | | | |
| | Calculation and Problem Solving | | | | | | | | |
| Manipulatives | Counters, fraction, tangram, slideline, patterns (Kaidy Educational Resources dba MathFun.com, Beacon-Ridge) | X | X | X | X | X | X | X | X |
| | Math Line (Onion Mountain Technology) | | | | | | | | |
